Edmonton, Alberta
1 January 1972

In the quarter century following the war's end, the value of Alberta manufacturing plant output rose from an annual rate of $250 million to $2 billion. Not only was there a rise in volume, there was an accompanying diversification and sophistication of products. This new range of products is reflected in this Index.

Alberta manufactured products are winning acceptance in national and world markets: nearly half are exported to other provinces and foreign countries. The Alberta government is vigorously assisting manufacturers to increase the proportion exported.

To aid Alberta businessmen in identifying sources of Alberta made products, and to assist in the Alberta export drive, this Trade Index lists Alberta manufacturers, Alberta minerals producers (exclusive of gas and oil), and Alberta timber quota holders. I commend it to your use.

F. H. Peacock, Minister,
Department of Industry and Commerce

CONTENTS

Page

SECTION 1. ALBERTA MANUFACTURING FIRMS 1

In this section the manufacturing firms of the province are listed. Types of products are given, and approximate size of firm indicated by a simple letter code.

SECTION 2. ALBERTA MADE PRODUCTS 118

Products of manufacturing plants and the names and addresses of the firms producing the specific product are listed alphabetically. Actual postal address can be obtained by referring to Section 1.

SECTION 3. ALBERTA TIMBER QUOTA HOLDERS 201

SECTION 4. ALBERTA MINERAL PRODUCERS 203

Included in this section is a listing of the firms, with their head office addresses which produce minerals such as clay, coal, limestone, salt, sulphur and liquid petroleum gases.

Many of the Alberta firms listed in this Trade Index label their products with the Alberta floral emblem, emphasizing the fact that they are Alberta made.

Albertans benefit by patronizing Alberta manufacturers and buying Alberta made products. Buying Alberta made goods helps to increase local employment, encourages industrialization and produces a sounder economy.

Support Alberta Industry by purchasing Alberta made products.

SECTION ONE
